

Virginia Department of Health

Comprehensive Harm Reduction Program

CHR Survey Analysis

October 2024

Summary of the Survey Findings:

The Virginia Department of Health (VDH) conducted a survey to gather insights from community members regarding various health programs.

This report provides an analysis of the feedback gathered from the survey participants, including their levels of satisfaction and helpfulness ratings for health services and programs.

Timeframe:

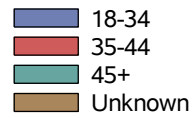

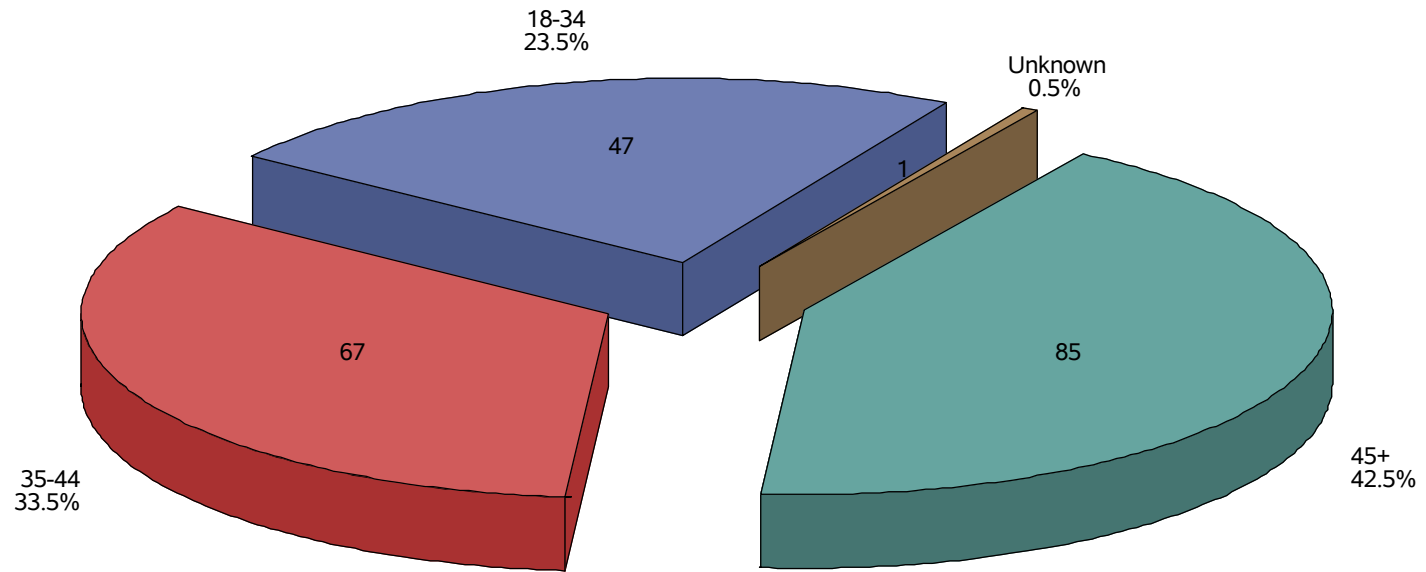

This analysis covers data collected between January 1, 2018, and May 31, 2024.

Outline:

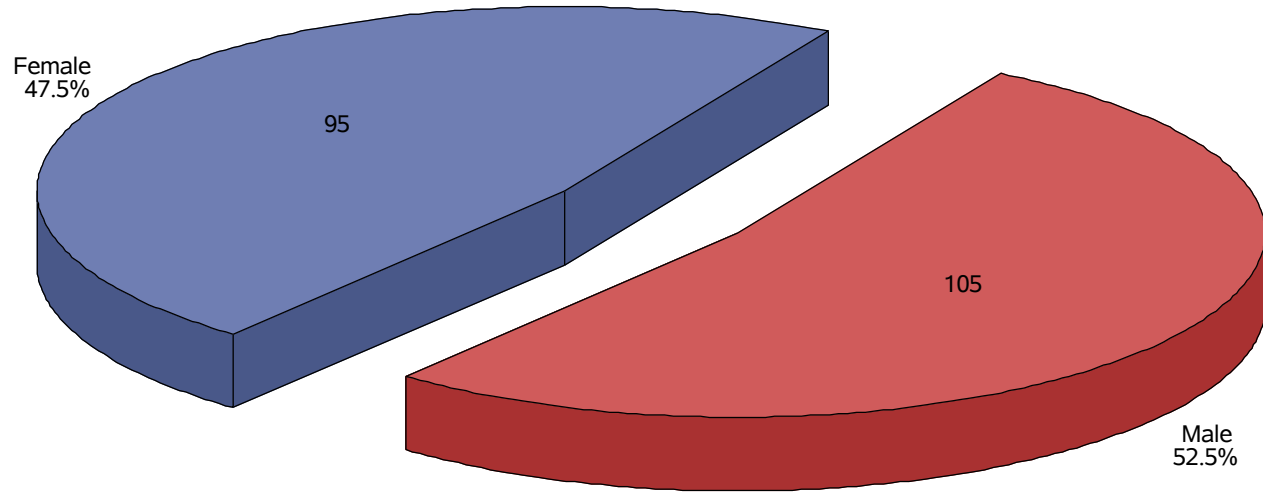

This report is structured as follows:

1. Survey Overview
2. Survey Participant Demographics
3. Analysis of Satisfaction and Helpfulness Ratings
4. Additional Information and Conclusions

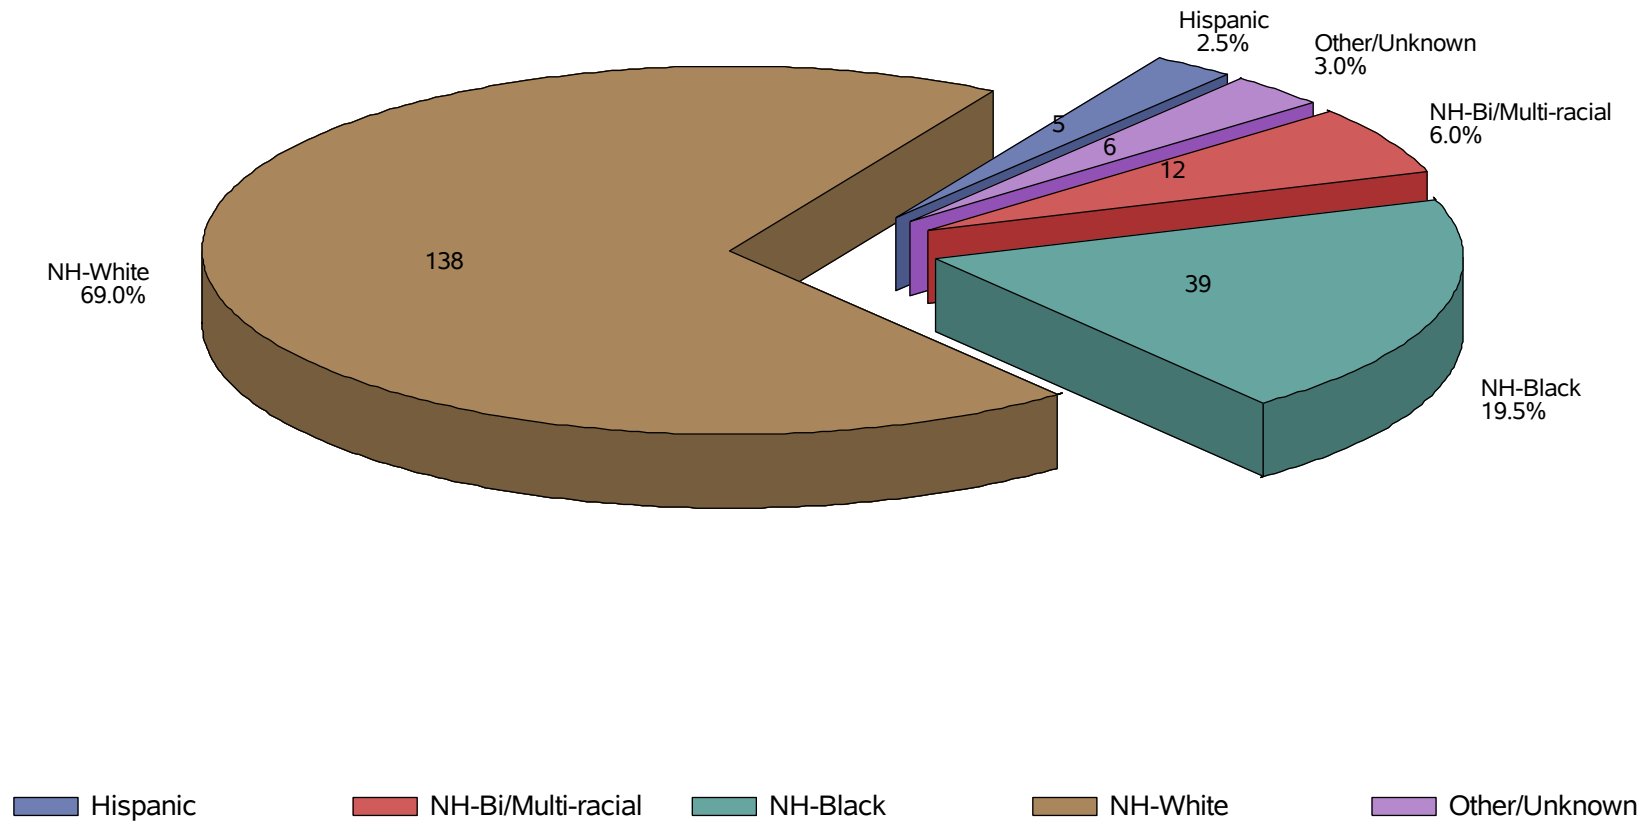

Age Distribution (Avg: 42)

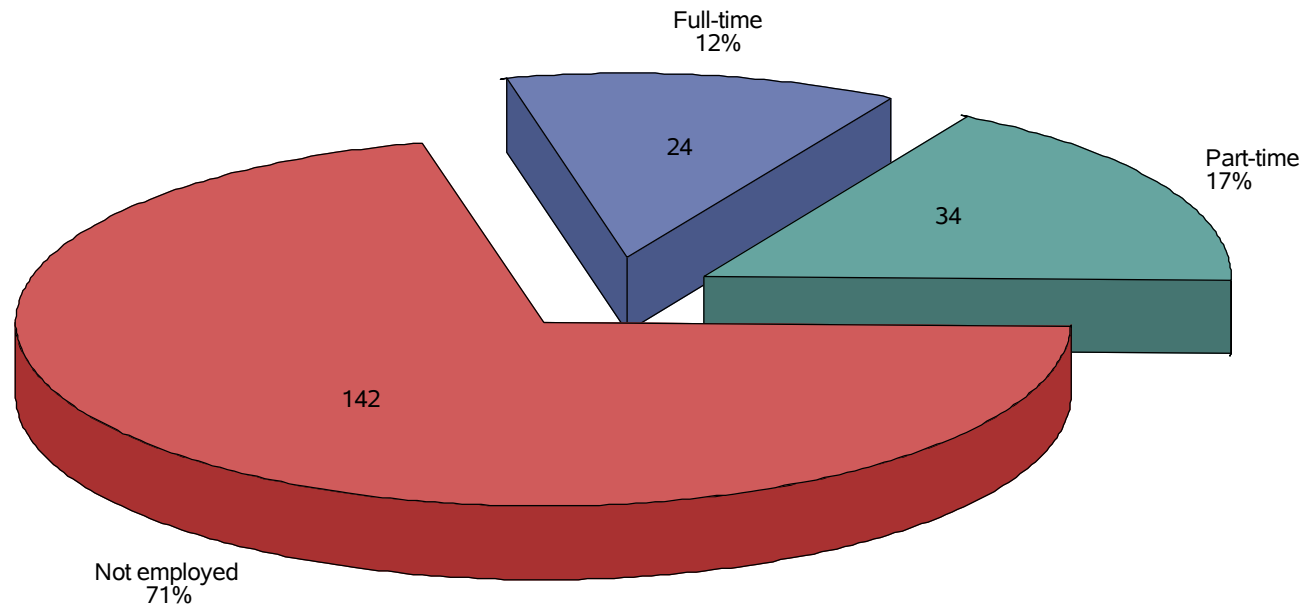

Gender Distribution
